EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

With respect to the amendment filed on 2/8/2006, the application has been amended as follows:

In claim 12 lines 2 insert -- positioned in a single lobe on either side of said central lobe. --; and delete line 3.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Applicant's amendment filed on 2/8/2006 crossed with the Office action mailed on 2/7/2006. In view of this amendment, the Office action mailed on 2/7/2006 is hereby withdrawn.

Amended claims 1-12 and 14-22 have been considered in view of the specification and the drawings of the invention with respect to the references of the record. The references of the record fail to teach or suggest that an induction machine having a stator windings with a number of inductors is a function of desired cutoff frequency and slot position distributed according to a sinc function as recited in claims 1 and 7 of this application.

Art Unit: 2837

Also, reviewing claims 1 and 7 for the patentability determination, the claims recite sine equations in terms of the induction machine windings and slots with the post solution, which the claims are within the guideline of patentability determination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
